**BUILDING EXTERIOR SOLUTIONS**  
A Terracon Company

### PROJECT SUMMARY

San Jacinto College District was created in 1961 to provide Community College access for the Pasadena and east Houston independent school districts. The district provides higher educational services for over 30,000 students each year. The Community College includes over 50 buildings at three campuses: North, South and Central.

BES has performed as the building envelope consultant representing the College for a number of new construction project since 2008. These projects include South Science and Allied Health, Central Allied Health, North Allied Health and Natural Science, Transportation Center, North Campus Library\*, and Maritime Center\* (\*currently under construction).

## SAN JACINTO COLLEGE – CAMPUS EXPANSIONS

### PROJECT LOCATION

Greater Houston Area
