

# STEVE M. HALL, RRO

## FACILITIES PROFESSIONAL

### PROFESSIONAL EXPERIENCE

As a senior roofing/waterproofing consultant, Mr. Hall serves as a valued member of the facilities services team at Terracon. His 38 years of experience with roofing and waterproofing systems instills client confidence and insures them that their projects will incorporate economical solutions and meet the required schedule.

His experience in roofing and waterproofing includes commercial roofing and waterproofing, installation supervision of most make or brands of single ply roof systems, modified roof systems, coatings, caulking, concrete injection and waterproofing systems. Mr. Hall's responsibilities began at project start-up of installation through punch list for manufacturer's warranty. He has a track record of completing projects safely, on time and within budget.

Much of Mr. Hall's experience has been in forensic investigations. These projects included maintenance, detecting sources of leaks on many roof types, creating work scopes that are compatible and logical for each situation. His years as supervisor/foreman and Quality Assurance/Quality Control representative assures clients that he is well versed in working with roofing contractor, owners, and other consultants to see that a project is completed to specifications.

Mr. Hall has managed the contracting side of the business and thus recognizes good field installation and overall quality control. This experience lends itself to providing exceptional project management for clients during construction.

Mr. Hall has served as a project manager on roofing and waterproofing projects for numerous clients. He has provided design services for the repair/replacement of roofing and works to extend the life of roofs slated for replacement. This alone saves clients thousands of maintenance dollars. Mr. Hall has unique experience in remedial roofing/waterproofing assessment, design and construction administration. He is experienced in solving building envelope water intrusion issues.
